

Meet Marvin! A mere 7.0 kg in weight, 27.2 cm in height, and 11.0 cm in MUAC circumference, Marvin is quite the site. While his round face and pudgy cheeks mislead one to consider him in good health, a slight glance to his legs or arms quickly dismisses such an idea. A few months past his second birthday, Marvin lacks the ability to speak and has never crawled or walked due to the unfortunate reality that his limbs cannot support his small body. When we first met Marvin, we assumed that he was at least a full year younger than he is. For his first twenty months, Marvin was under the care of his grandmother, but she suffered from her own health problems and struggled to care for herself. Four months ago she resigned her guardianship and Marvin began to receive care from the AA Babies Home.
